Lactobotanical Peel - gentler AHA peel which effectively exfoliates to help retexturise the skin improving its appearance.

Salicylic Peel - a deeper exfoliation, designed to treat problematic skin, improve the appearance of age spots, as well as softening fine lines and wrinkles. Your skin needs to be prepped with our Vitamin A and AHA exfoliant serums for a minimum of 2 weeks prior to treatment. This will avoid any adverse reactions.

MICRODERMABRASION \$100

This is a non-invasive skin resurfacing procedure that uses a mechanical medium to gently remove the outermost layer of dead skin cells from the epidermis, refining the skin surface whilst stimulating collagen and elastin production. It is perfect for premature ageing and acne scarring.
